LINE SHARE USOCS

DLEC ACCOUNT, BILLING ONLY

DESCRIPTION	USOC
BASIC CLASS OF SERVICE, LINE SHARE SERVICE	ULS

DESCRIPTION	USOC
SYSTEM, SPLITTER – 96 LINE CAPACITY The 96 Line Capacity, Splitter System rate element will provide BellSouth Central Office-based capacity for 96 individual (line) connections for line sharing. Rates and charges will apply on a nonrecurring and recurring basis	ULSDA
SYSTEM, SPLITTER – 24 LINE CAPACITY The 24 Line Capacity, Splitter System rate element will provide BellSouth Central Office-based capacity for 24 individual (line) connections for line sharing. Rates and charges will apply on a nonrecurring and recurring basis	ULSDB
LOOP CAPACITY, LINE ACTIVATION – PER OCCURENCE The Loop Capacity, Line Activation element provides for a connection between the BellSouth Central Office-based Splitter System and the BellSouth Central Office-based termination of a BellSouth-provided Local Exchange service facility. Charges for this element will apply on a recurring and nonrecurring basis.	ULSDC
SUBSEQUENT ACTIVITY – PER OCCURRENCE A subsequent activity charge will apply on nonrecurring basis, and is a combined charge covering various occurrences such as moves of lines between BellSouth Central Office-based Splitter Systems and moves from a BellSouth Central Office-based Line Sharing arrangement to a Remote Terminal (RT)-Based Line Sharing arrangement.	ULSDS
CFA ACTIVATION FOR DLEC OWNED SPLITTER This Billing Only USOC applies when a DLEC requests activation of Cable and Pairs for a DLEC owned Splitter. The request is made via the LSOD and order will be issued by the LCSC after notification that the wok has been done.	ULSDG
